Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant and the Examiner discussed interpretations of the prior art specifically with respect to the limitation for "comparing a variance obtained from relations between the approximate line and the average values with a reference value to evaluate the crystallinity of the semiconductor film having the crystallinity that has been improved." While the newly amended claim appears to overcome the outstanding rejection, the Examiner maintains the need to fully reconsider the applicability of Tsumura and Ozawa with respect to the claimed limitations .

A handwritten signature in black ink, appearing to read "By [unclear] W. [unclear]", is located in the upper right quadrant of the page.
